Reflected Ceiling Plan

Fixture Schedule

Cut Sheet

Specification

Spacing Criterion

A plan view of the ceiling showing the location of lighting fixtures. May also show the location of other ceiling mounted equipment such as sprinkler heads and air vents.

A document prepared by a luminaire manufacturer describing the physical and electrical aspects of the luminaire, and listing options and accessories.

A table that identifies a luminaire or fixture type, the manufacturer and catalog number, a description of the significant aspects of the luminaire, and the required lamp.

A maximum distance that interior fixtures may be spaced that ensures uniform illumination on the work plane. The luminaire height above the work plane multiplied by the spacing criterion equals the center-to-center luminaire spacing.

A text document that calls out the specific requirements for a construction project. Most commonly arranged in the MasterFormat by the Construction Specifications Institute.
